Agreement with John McCombs.

In consideration of the permission given him by the City of Fort Wayne in granting his petition therefor by the Common Council of said City, the undersigned undertakes promises and agrees to enclose

the strip of ground belonging to the City of Fort Wayne commonly called a "Park" and lying and being adjacent to his property situate on the North West corner of Broadway and Berry Street in said City, With an ornamental fence and keep up and maintain the same for the period of fifteen years and also to pay all assessments that may be made during said period against said strip of land for Street and sidewalk improvements And that he will on the West side of said strip construct a proper walk the length of the same accessible by gates at each end

Signed J. McCombs.

Report of City Attorney.

1st In the matter of the petition of Josiah Locke to have taxes refunded. I am of the opinion that Mr. Locke made a voluntary payment of the amount claimed upon property in which he was in no wise intersted, That the payment was wholy without compulsion and as a speculation, and that the City is in no wise bound to refund. There is no greater reason why the City should refund to him than to others who have paid taxes to the City on property which was afterwards declared illegally annexed. If the City refunds this tax to Mr. Locke they must refund thousands of dollars to others whos claims are more meritorious than the petitioner.

2nd I have carefully examined the Ordinance for the appraisement and assessment of all real & personal property within the limits of the City for the Year 1882, and I find the same in all things and in compliance with the laws now in force,

3rd I prosecuted the claim of Mrs. Sigman to the Board of Commissioners and after trial held and evidence heard, They allowed her the sum of $75.00 which was perfectly satisfactory to her. I also tried the case of Miss Stevens and the Board also allowed her the sum of Fourteen dollars which is satisfactory to her. I feel well satisfied in saying that these are the last claims of this nature that the Board of Commissioners will allow

4th In reference to the Gay Street Bridge I am of the opinion that the City must bring Suit against the Rail Road Company if they do not repair the Bridge. Befor asking the council for instructions I will again consult the Supt. of the Companies and report.

Signed Henry Colerick City Atty.

A SEWER ORDINANCE FOR THE ALLEY BETWEEN WASHINGTON AND JEFFERSON, FROM BARR STREET TO FIFTY FEET WEST OF THE WEST LINE OF LAFAYETTE STREET.

BOOK 14 PAGE 829

Reg Session April 11/82

ON account of the important questions involved we would suggest the advisability of postponing action on the removal of the Stand pipes used by water wagons, and recommend the appointment of a Committee to confer with the City Attorney and Water Works Trustees upon the subject. The owners of the Standpipes, we understand, erected them after obtaining permission of the City Council and property owners concerned, incurring considerable expense in doing so. Therefore we suggest and trust that the interests of the parties concerned as well as the City itself will not be endangered by any hasty action, and that the Water Works will not be cut off from a profitable source of revenue from consumers who have carefully complied with all the Water Works By-Laws. As these Stand pipes do not obstruct the Street or look badly the property owners do not object we do not think the Council should order them removed.

Signed Christian Boeckes, C McCulloch } Trustees of the Water Works

Which report was referred to the Committee on Water Works.

The Petition of Trustes of Masonic Temple was referred to Special Committee opponited by the Mayor - consisting of the Committee on Assessment and Taxes.

Section 9. was referred to Committee on Streets and Alleys to report best method of repairing said street.
Section 15. received & ordered filed.

Report of City Attorney.

1. I have carefully examined the bonds of the new appointed Deputy Assessors and find all of them correct and right with the exception of one and that is the bond of Mr. Campbell wherein he has John Forbing also an assessor on his bond, This is in conflict with the Charter. I would recommend that all the bonds be approved but Mr. Campbells and that he be allowed to file new bond.

2. In relation to the Truck Ordinance. I report that it is within the power of the City to pass and legally enforce the Ordinance reported. If it is deemed essential to the interest of the City to pass such Ordinance its enforcement is assured.

3. I report that I have carefully examined Councilmen Mohrs. Goose and Lins Animal Ordinance, and that I am of the opinion

that the Charter confers such power upon the Council, and that there is no legal objection to said Ordinance.

4. In reference to the "Electric Light" Ordinance, I report that I have carfully examined the same and would report that before the Council pass the same I would recommend that an additional Section be added reserving to the City the right to revoke the right at any time by resolution and reserving the right to change or modify the said Ordinance at the pleasure of said Council. Unless the Council in the future place upon such lamps some restriction the Streets of the City will be wholly monopolized by those who thus enjoy the fruits of the use of such streets.

5. In reference to the case of Hanna Adm. vs City, I respectfully report that the same has been tried before a jury in the Circuit Court and a verdict rendered against the City for $5,500. The usual motion for a new trial has been made and is now pending. I found when the case was ready for trial that Judges Carson, Sinclair and Zollars were for the plaintiff, and I solicited the assistance of Mr. Irwin Stratton who faithfully discharged his duties in the defence of the case.

I will not now make any open recommendation as to the proper course of the City in case the motion for a new trial is over-ruled, but would respectfully recommend that the matter of the case of Hanna vs. City be referred to a proper Committee.

6. I would respectfully recommend to the Council that a proper notice be served upon the Board of County Commissioners requesting that they put all bridges within the City limits in a good and safe condition. While the expense of building and repairing all bridges is with the Commissioners, yet the charge of seeing that they are safe and passable is with the Common Council.

Report of City Civil Engineer

In the matter of the petition of Christ Pohlman et al, complaining of encroachment on Gurley Street by the T. G. C. & St. L. Ry. I have the honor to report that the width of said Gurley Street on the South side of Reid's Addition, was laid out at 25 feet exclusive of the Canal Towpath. That the said Railway Co in the construction of their road bed have taken possession of 16 feet of said street opposite the south west corner of Lot No 12. in said Addition. The Ry Co. I am informed were compelled to make this encroachment in order to get in the required curve to reach their bridge across the St Marys River. I presented the facts at one time to the City Attorney and he was of the opinion that if the property was damaged, the owners must seek relief from the Railway Co and not the City.

See additional report on pages 38 & 39 of Civil Engineer.

Signed C. S. Brackenridge
C.C. Engineer

Referred to City Attorney.

The same Officer submitted the Contract & Bond of Anselm Krack with Benedict Krack as surety for the grading & paving of sidewalks on Creighton Ave from Smith St to Holton Ave, and on Creighton Ave from Force St to Gay St. Also on Jane St from Leith St to south end of said St.

The above Contracts & Bonds are recorded in full on pages 298 & 299 and 300 & 301 Book No 2 and are a part of these minutes

Communication of C. M. Barton - Treasurer.

In order that the work of collecting delinquent taxes may be commenced in due time - it will be advisable that the appointment of a person to do that work be made by the time of your next regular meeting. Heretofore I have made such appointments subject to your approval, trusting to the business knowledge and judgment of Councilmen to make such provisions when arranging for the payment of officers, that the person so appointed could be fairly compensated for his labors but for two years past, I have been told that it has been asserted with great positiveness in Council that the fees which such deputy received from delinquents were - if not a bonanza a very large remuneration for his work.

Now I simply ask that if any member of Council knows of any person who will undertake the proper and careful collection of the delinquent City taxes for the fees properly chargeable to the delinquents, such person be named and I will make the formal appointment

to authorize him to proceed with the work - on condition that I be in no way held responsible for his acts or the manner in which he does his work

We the undersigned, resident freeholders of said City of Fort Wayne, Indiana would respectfully represent unto your Honorable Body that the cemetry, known as the "Old Cemetry" being a tract of land of four (4) acres, commencing at the north west corner of said "Old Cemetry" running thence south thirty one and one fourth (31¼°) degrees West thirty two (32) rods, thence south fifty eight and three fourths (58¾°) degrees West twenty (20) rods, thence North thirty one and one fourth (31¼°) degrees East thirty two (32) rods, thence North fifty eight and three quarter (58¾°) degrees East twenty (20) rods to the place of beginning, lying on Broadway Street and situate within the limits of said City of Fort Wayne, was dedicated for burial purposes on the 26th day of Febuary 1839 by the then owners of said land.

Your petitioners further represent that said cemetry has fallen into neglect and disuse! That remains of deceased persons have from time to time been exumed and removed therefrom on account of such neglect; That no interments have been made therein for a period of more than five years next preceding the filing of this petition; and that said Cemetry hinders and obstructs the groth of all that part of said City lying in the vicinity of said cemetry.

Wherfor your petitioners pray your Honorable Body to vacate said Cemetry

Petitions, Memorials and Remonstrances.

The undersigned, members of the "Fort Wayne Relief Union", respectfully petition and represent unto your Honorable Body that they have lately organized and incorporated in said City the said "Fort Wayne Relief Union", having for its object the providing of an asylum for the care, support, discipline, and education of Orphan children, and they had hoped and expected by its incorporation to procure aid from the County in accordance with an act of the legislature, passed in March, 1881, giving to the Board of Commissioners discretionary power to purchase buildings and grounds "at a cost not to exceed the sum of five thousand dollars" for such purpose.

A petition numerously signed by tax-paying Citizens asking for such appropriation was accordingly presented to the Commissioners of this County, and they have concluded that the present condition of the funds of the County would not warrant such an expenditure. It was thereupon suggested to said Union that if the "Old Broadway Cemetery" could be vacated it would make a desirable location for an Orphans home, and that the ladies should join in a petition to the Hon. Hugh McCulloch, to whom, as the original owner, the land would revert in case of such vacation, asking him to convey his title to the property to the "Relief Union" for the purposes mentioned. A letter was accordingly signed by the members of the Union and sent to him, which has resulted in the correspondence, copies of which are filed herewith, (H.S.) and to which your petitioners beg to call your attention.

After the receipt of the letter bearing date of April 25th 1882, from Mr. McCulloch, your petitioners caused to be prepared and signed by the requisite number of resident freeholders of said City, in accordance with an act of the last legislature, a petition, praying for the vacation of said cemetery which petition is now pending befor your Honorable Body.

Your petitioners further represent that if said Cemetery is vacated they have reason to believe that a very generous donation of the Hon Hugh McCulloch will be reciprocated by the Citizens of Fort Wayne, and that the "Relief Union" will be able at an early day to erect and maintain a suitable home for the orphan children.

Wherefore your petitioners pray that your Honorable Body will grant the said petitioners now pending befor you and vacate said Cemetery.

Report Committee on Assessment & Taxes.

The Committee on Assessment and Taxes beg leave to report on matters referred to them as follows,

Concerning the communication of Com Barton City Treas. asking the Council to name or appoint a Deputy Treasurer and compensate the same by fixing a Salary same as for City Officers,

After a few improper insinuations the communication closes with these words. "And I will make the formal appointment to authorize him to proceed with the work on the condition that I be in no way held responsible for his acts or the manner in which he does his work." Your committee find that Sec 8. especially and also Sec. 48. of the City Charter authorizes the Treasurer to appoint with the consent of the common council one or more Deputies. according to the law the Treasurer is elected by the voters except in case of a vacancy between elections when the Common Council will appoint a Treasurer, But there is no law Authorizing the Council to appoint a Deputy Treasurer. The common council is directed by law to take a bond in legal form and amount from the Treasurer but not of a Deputy Treasurer. And the Treasurer alone can be held responsible for the collection and safe keeping of the peoples money, and if the Treasurer is unable to do all the collecting himself he must see how and by whom the work is done, and he and his bondsmen will and are

the only ones that legaly can be held responsible, none can hold a Deputy Treasurer responsible except the Treasurer himself.

In the same manner their is no provision in the Charter or Tax Laws authorizing the Common Council to compensate a Deputy Treasurer, Hence the Treasurer himself must provide for such compensation, and the Common Council fixes a Salary or fees or both for the Treasurer to compensate him for the fulfillment of all work and duties pertaining and belonging to his Office, Under the Ordinance for this year he is entitled to $2000.00 Salary and fees, which means aside of all other fees such as for, Receipts, Sales, etc. The same percentage as County Treasurer are by law entitled to for Collecting delinquent Taxes and as your Committee understands the County delinquent Taxes are generally collected without the County Treasurer petitioning the County Commissioners for additional allowances for Deputies, or for the appointment of such contrary to law. Your Committee believes that any interference by the Council in matter prayed for by the Treasurer would relieve the Bondsmen of the Treasurer from all liability in case of an accident.

Your committee therefor reports adverse.

Additional Report of Treasurer

At the regular City Tax Sale in Feby 1880, Josiah Locke, purchased among other tracts or lots of land - Lot numbered three (3) in Eckers subdivision of Peughs Out Lots 7 & 8 - Said lot being then regularly to all appearances taxed on the City tax duplicate, and delinquent. In January 1881 said lot was stricken from the tax duplicate, as being not liable for City taxes - under the ruling of the superior Court in the case of Meisner et al. vs the City.

Some months since Mr. Locke petitioned Council to have

the amount paid by him at his purchase as aforsaid of said lot refunded him, This was refused, He now sends certificate and demands a deed for said lot.

It occurs to me that to refuse to make the deed might in some way complicate matters betwen Mr. Locke and the City, and on the other hand for the City Officer to make a deed in the name of the City for that which by her records the City makes no claim might be equally questionable,

I therefor respectfully ask your instructions in the premise'

Additional Report of Trustees of the Water Works.

Herewith we present vouchers for Stonework for the protection of the banks of the Filtering Basin; for special castings for the Extentions ordered by the Common Council; also for Stop boxes and service connections up to date. The vouchers for stop boxes and service connections aggregate $525.07.

We present them again for your consideration because, On account of the recent action of the Council requiring the Salries of the Trustees to be paid from the Maintenance Fund, the drain upon this fund will hereafter be so strong that the expense of putting in services cannot be paid out of it without exausting it in a very short time. Therefore we ask that until the first of July, when water rents will be coming in again, the cost of service be paid from the Construction Fund as heretofore, in order to avoid exausting the maintenance Fund, as the latter fund will be needed entirely for running expenses until that time. By so doing will will also avoid getting the funds mixed, which would result, were we to exhaust the maintenance Fund and be compelled to depend on appropriations for running expenses.

We also desire to state that we had hoped to be able to submit at this meeting our annual report for the year ending the 30th day of April, 1882. but the report has not yet been entirely printed. We therefore present proof slips of so much as has been printed, and ask further time in which to submit the report in pamphlet form.

Herewith is also presented for your action a contract with and bond of A. Hattersley & Son for furnishing Stop Cocks and Corporation cocks used in making service connections.

We also submit a contract for pipe laying for the proposed extentions. As there has been an intimation made that an injunction might be served if a contract was made for less than the entire work advertised for, we recommend that the Contract and points involved in it be submitted to the City Attorney for his investigation.

S. St John	"	Pest House	6.00
W. Chandler	"	Fire	2.00

The bill of Joseph Mommer Jr. Recorder of Allen Co, for services in the case of John Taylor vs. Chas M. Barton, Treas. amounting to $6.00
Was referred to Citys Atty.

Petitions, Memorials and Remonstrances.

Christian Snyder, petitioned that the Alley between Lots 110 and 112, 97 and 98 in Beck's Addition, be opened.
Referred to Committee on Streets and Alleys.

Rt. Rev. Bishop Dwenger requested that a Lamp Post be erected on either side of the entrance to the Cathedral, the expense of which will be defrayed by him, (except the lighting of one Lamp,) which he expects the City to pay for,
Petition granted.

Rt. Rev. Bishop Dwenger prayed that Lots 184, 185, 186, 187, 188 and 189, in Havenas Addition, be vacated so as to avoid confusion on the Tax Duplicate and also that said property, bounded by Calhoun, Clinton, Jefferson, and Lewis St. be hereafter described as the "Cathedral Square". Ref'd. to Committee on Assessment and Taxes, City Atty, and City Civil Engineer with power to act, and report proceedings to County Commissioners.

W. Wadge, requested that he be allowed to build a sidewalk in front of his property on Clay St. from the Alley South to Montgomery St.

G.O. Schaefer and others called attention to the contemplated Sewer, commencing at the South line of Lasselle St. thence northerly on Hanna St. to Wayne St. thence easterly on Wayne St. to the Alley between Lots 366 & 367 Hannas Add. thence northerly along said Alley and terminating in the Maumee river. And remonstrated against the Construction of said Sewer on Hanna St. as said Street is high and not in need of drainage; therefore the sewer would be burdensome and unjust on the property owners.

Referred to Committee on Sewers.

William Lukman and others petitioned, that brick sidewalks be built on both sides of Canal St. to the north line of Lot 3 Pepenbrink's Add.

Referred to Committee on Sts and Alleys.

Louis Hirschfelder and others, remonstraded against the construction of a brick Sidewalk on the South side of Wayne St. from Hanna St to University St. As they deem it burdensome enough to pay a sewer assessment.

Referred to Committee on Streets and Alleys.

Reg. Session May 23/82

Report of City Civil Engineer

The City Civil Engineer submitted his annual Report for the year ending April 1st 1882. (H.D.)

On Motion the report was referred to Committee on Streets & Alleys.

Report of City Attorney.

1st I have examined the Official Bonds of James Bunn as Trustee of Water-works and of Nicholas Alter as Deputy Assessor, and I find them both in all things correct and sufficient.

2nd I reported last month adversely to the Petition of Josiah Locke, which petition prayed for the refunding of money paid for Lot 3. in Eckerts Sub-division of Pughs- out Lots 7 and 8. at public Tax Sale. At the time I reported, I was under the impression that the money was paid at private sale of the lots by the City Treasurer from which there could be no recovery, but in as much as I now know the sale was a public Sale. I feel satisfied that by Sections 217 and 218 of the Tax law, that the City is required to repay to Mr Locke the amount she has received from him as said lot was not in the City limits, and if it had been by subsequent legislation of the Council, the City has now no power to make Mr Locke a deed therefor. Wherefore I recommend that his petition be granted.

3rd I have directed the Street Commissioner to amend his report in reference to the draining of Lot 2. in Lewis Add. and in relation to the repairing of certain sidewalks, and to procure the certificate of the City Civil Engineer that it was properly, and to his satisfaction, performed. Upon this report being made as above to the Council, there will be two resolution's carefully prepared, presented to the Council declaring said expenses a lein upon the respective lots, which the Council ought to pass.

4th In the matter of the bills of costs in divers cases for which the City is liable, I report that I have carefully examined the same, and demanded an itemized statement from clerk Spencer, which he furnished and I find that the said costs are correct and that the City must pay them, They are quite large in the case of Mutter vs. the City in Superior Court, but this was occasioned by the contempt—

proceedings had therein. These costs are in eight cases and embrace the costs of Sheriff. I respectfully recommend that the City Clerk take the receipt of these Officers for the same in case the Common Council orders them paid.

5th I have carefully examined the question of the expediency of the Common Councils vacating the Broadway Cemetery, and I am of the opinion that the question of the right so to do is a close one. I was informed that Mr. McMullock who laid out and platted the property in question had done so, that it might be used as a burying ground only upon a careful examination of the records, I find that in 1852 Mr McCulloch laid out and platted said grounds, and certifies as follows, "The above plat is laid out for burial purposes and intended to be used as such forever," I find that afterward, he made a great many conveyances in some of which he declared that such lot or lots as he conveyed were to be used for burying ground purposes only, And I find that he made many conveyances in fee simple without any reservation what ever,

As an illustration of one of these conveyances, see deed to W. W. Sherms. for lot 113. recorded in Deed Book "H" page 259. I doubt the right of the Council to enforce as well as the right of the legislature to pass. any such law, I do not desire this opinion to be conclusive as far as I am concerned but I now report that the Council may move with care. for the question is an important one and if the Council should order the vacation without legal right so to do. it would involve the City in expensive and probably unsuccessful litigation.

6th I find the official bonds of D. W. Campbell and L. J. Rockall as Deputy Assessor in all things correct and sufficient.

7th In reference to the Petition of Gregory Klug. I respectfully report that the same shows no legal or moral responsibility upon the part of the City. It may be possible that Mr. Klug has a remedy but if he has it is against the members of the Board of Health personally and not against the City.

8th I have examined the claim of Mr. Oppenheimer for damages alleged to have been sustained, during the small pox trouble and I am of the opinion that his claim has no merit in it. That the City is in no wise liable to Mr. Oppenheimer and that his Petition ought not to be granted

Reg Session May 2 3/82

9th In reference to the report of the City Civil Engineer on Petition of Christ Pohlman. I say that this matter has been heretofore reported on. The facts are that the City granted the T. H. C and St L Ry Co permission to use the Street in question, and in the use of the St. they have damaged the real estate of the petitioner.

I informed petitioner that they must seek their remedy of the Co. And I saw one of the Directors of the road who says that the Company stand ready to pay whatever damages petitioner may have sustained, but that they cannot agree upon the amount.

It is a question with which the City ought not to be involved and petitioner must follow that course and seek that remedy that the Supreme Court has decided the proper one.

10th In the matter of the intended petition of City for the exclusion of certain lots and lands from the City limits. I respectfully request that the City Civil Engineer be requested to furnish me with a perfect description of the lots and lands sought to be excluded. You will remember that the labor of preparing such petition is a great one. I feel satisfied that I can do all the labor connected with the petition but the one referred to

11. In the matter of the petition of John M. Miller. I would recommend that his claim for a refunding of Taxes paid under protest, be referred to the Committee on Assessment & Taxes or Finance with power to act, as the claim is small and ought not go into the Court of just.

12. I recommend that the claim of Milton Webber be not allowed as their is no legal responsibility on the part of the City, and he must look to those who did him the damage.

Signed Henry Colerick City Atty.

On Motion Sec. 1 was concurred in. Sec. 2. Concurred in and Treas. instructed to pay claim. Sec. 3. Concurred in. Sec. 4. Concurred and clerk instructed to pay. Sec. 5. Ref'd. to Cont. on Pub. Grounds & Buildings. Sections. 6. 7-8-9-10-11 and 12 Concurred in.

Report - Chief Engineer Fire Department.

1. I hereby respectfully report that I have appointed John McGowan as 1st Assistant Engineer and Frederick Becker as Second Assistant Engineer of the Fort Wayne Fire Department and ask your Honorable body to confirm my appointments

2. I would also recommend a Lowry Hydrant at the Cor of Clinton and Murry Sts. and a Post Hydrant at the South East Cor. of Barr and Murry Sts. as we havent at the present time any water supply within two Blocks of the Olds Wagon Works and surrounding Buildings in case of Fire.

3. I would respectfully report that we have 4563 feet of Hose on hand of which there are 2550 feet of good Hose, we also have 450 feet of burned Hose, I also herewith attach an Inventory of all goods &c owned by us upon assuming the office of Chief Engineer. (H.D.)

First Sec. Appointments confirmed. 2nd Sec. Ref'd. to Fire Committee. Sec. 3. Concurred in. Inventory ref'd. to Committee on Fire Department.

Official Bonds.

The City Clerk submitted the Official Bond of Wm Henzie as Market Master, (H.D.) Henry Heibbrecht as Chief Engineer of Fire Dept. (H.D.) Hugh M. Dribble as Chief of Police (H.D.) Frank Wilkinson as Lieutenant of Police. (H.D.) Patrick O'Ryan, John Emmel, John McCann, R. Henninghoff Joseph Gushing, Geo Heubrecht, John Foutman, Henry Schroder, Ferd. Myers, Rolla Frank, Henry Lapp, Thomas Doyle, Henry C. Franke, Geo D Lee, Patrick Connors, John Oconnel, Fred Wahrenburg and Peter Downs, as Patrolman, (H.D.) also the Bond of Patrick Ryan

Which Bonds were referred to the City Attorney.

Communication from City Treasurer.

I desire to be permitted to express my thanks specially to the Chairman of the Committee on Assessments and Taxes for his report made at your last regular Session, and generally to the Council for concurring in said report

The accordance and thereby virtual confession of the

issue presented in my communication at a prior meeting of your honors together with the placing upon record so elaborate a Statement of the relation which should exist between the Council and treasurer, and such Statement being so nearly in accordance with what I have desired ever since the change in the laws made in 1875, are matters which call forth my sincere gratitude.

That this is no mere afterthought of mine you will see by referring to a communication from me among your records of June 15-1880

I therefore now respectfully report that I have the list of delinquents required by Sec. 158. of the Act. of March 29th 1881, ready and as soon as proper persons can be arranged with, will be ready to commence the due collection of delinquent taxes. Will then report for your approval the name or names of the person or persons appointed.

Signed O.M. Barton
City Treasurer

On motion the Report was rec'd. and filed.

Report of Chief of Police.

I respectfully report to the Common Council that the Station House is greatly in need of a new floor in the front room down Stairs and the back room up stairs, as the same are rotten and broken through and the up stairs room is rendered dangerous by reason of large holes having been burned through the same.

I also beg of you that you may order the building whitewashed within, so that the same may be rendered as nearly Comfortable as can be.

Report of City Attorney.

1st I have carefully examined the official bonds of late Election City officers and find them all correct and sufficient but I find that some of the police give bonds for one thousand dollars and a large number for five hundred dollars each.

2nd I have carefully examined the matter of the petition of M. Benjoman for damages suffered by him by reason of injuries sustained in falling upon a defective sidewalk. He has consented to accept Thirty dollars in full of all claims up to date. He submitted his affidavit as to injuries and loss of time and he also delivered to me a certificate of Dr. Thayer to the extent of the injuries. And I respectfully recommend that he be allowed $30.00 upon his receipting in full of all claims against the City up to date.

3rd In the matter of the claim of Mrs Margantta Stettner for injuries received by falling upon a defective sidewalk on High St. in may last. I report that I have carefully examined her case and I find it a meritorious one. The sidewalks is in bad condition, by reason of the planks getting loose and liable when stepped upon to fly up. It becomes more dangerous because it looks safe when it is not, I interviewed a dozen witnesses who testified to the justice of petitioners claim.

I believe in as much as her arm was broken that her claim for $50.00 is modest and would recommend its payment

upon her reciptng to the City Clerk in full of all demands against the city up to date.

4th In connection with the last two cases I would draw the attention of the Council to the fact that as long as the City allows the old plank sidewalks to be out of repair she must expect to face just such demands, if not much graater ones. The law affords a remedy for just such truble and it is our Ordinance on the subject of sidewalks

5th I find the bill of Recorder Mommer of $6 00 in Taylor case correck

The same Officers submitted the following.

As you are aware, the various extentions ordered by you are now in progress. We desire to state that it will be impracticable to finish the west Wabash St extention properly without using twelve-inch pipe on a portion of the line so as to be prepared for finishing the proposed auxiliary main to Bloomingdale. We recommend this matter to your immediate attention, as the laying of twelve-inch pipe has not been contracted for.

We also think it would be well for the Council to take action at this time on the Seventh Ward extention, as several parties have called at this office to request that the pipe be changed from Damme Street to some other Street when there are more inhabitants. We trust that the line on which this extention shall run will be determined by your honorable body at this time, as it is the intention to have it completed before the next meeting of the Council.

Report Committee on Finance.

Your Committee on Finance, to whom was referred the report of the Committee on Fire Department reporting that they had increased the Salary of Michael Connors, driver of the Engine "Charley Zollinger" $10 per month, would respectfully report that the Committee have exceeded their authority in this matter, and if they believe any change should be made in the Salaries paid. They should so report to the Council and ask that the increase be ordered.

We recommend, therefore that the report be not concurred in

Report Concurred in by Council.

Your Committee on Finance, to whom was referred the report of the Committee on Public Grounds and Buildings, recommending the vacation of the old Cemetery on Broadway, would suggest that the Council direct that Committee to examine the cemetery, ascertain how many bodies will have to be removed, what the probable cost of such removal will be and whether there will be any other expenses to the City in such vacation.

Report concurred in by Council.

Your Committee on Finance would report that they have asked several Carriage makers to send in bids for the Spring Wagon prayed for by the Street Committee, which bids will be presented to night.

Report Concurred in by Council.

On the petition of the Teamsters employed by the City, Your

Committee would recommend that the petition be referred to the Street Commissioner, and that he be directed to report to the Council what is being generally paid for teams doing similar work, and what he considers right and just in the premises.

Report concurred in by Council.

Your Committee on Finance would respectfully report that the petition of the Committee on Streets and Alleys be referred to His Honor, the Mayor, with a recommendation that the prayers of the petitioners be granted, unless they think "tempora mutantur, et nos mutamur in illis"

Report Street Commissioner

1st. That the gutters on the North side of Main Street between Bart and Clinton Streets are in a filthy and bad condition, the blocks are rotten in several places allowing stagnant water to remain thereon to the injury of property owners living along said Street. Also the gutters on the north side of Columbia Street between Clinton and Harrison Sts. are in places in bad and filthy condition. I would therefor recommend that the proper resolution be drawn to have said Gutters put in proper condition as the property owners, I believe, are willing to pay for said improvements

2nd In the matter of resolution of Councilman Wolf instructing me to give ten days notice to the owner of Lot 103 Original Plat, on Calhoun Street, to repair the sidewalks and bring it to proper grade would respectfully report that I served the proper notice and the work has not been done.

Signed D. O'Brine

Report of Committee on Streets & Alleys.

1. In relation to the several petitions referred to us by property owners for permission to build their own sidewalks, we report that we deem it inexpedient to grant any one permission for two reasons: First, that a great many abuse the privilage; Second, we find that it works great injustis to contractors after bidding on such work.

2. In relation to the petition of C. & R Ekers et al; we are unable to find any sidewalk in a private Alley referred to in the petition.

3. In relation to Mechanic St. river improvement, we deem it advisable that the matter be referred to the Committee of the whole to be called together by the mayor.

4. In relation to the petition of J.G. Heine et al, to have obstructions removed from Wayne and Clinton Streets, We recognize that such continued Street obstruction's are illegal and should be removed, but we deem it impolitic to single out certain violators of the law and cause its enforcement on them, while others are allowed to violate the law with impunity and to the entire disregard of petitions which have heretofore been presented to your Honorable Body, and in view of this fact, We recommend that your Honorable Body take such action as will cause the laws in regard to Street and Sidewalk obstructions to be enforced on all citizens alike and show favoritism to none.

5. In favor of the resolution of Councilman Hamilton for sidewalks on the West side of Lafayette St. from Columbia to Main.

6. In favor of the resolution of Councilman Welsh for grading the Alley between Fairfield Avenue, Oakley Street from Poplar to Linwood St.

7. In favor of the resolution of Councilman Vordmark for a sidewalk on the north side of Oak Street from Division to Chuler Street.

Reg Session July 11 1882

8. In favor of the resolution of Councilman Smith for Sidewalks on both sides of Hoagland Ave. from Melita St. to Creighton Avenue.

9. In favor of the resolution of Councilman Reese for Sidewalks on both sides of Clay Street, from Jefferson Street to the first Alley, running East and West and south of Jefferson Street.

10. We desire to call the especial attention of Councilmen to the defective and dangerous condition of the Sidewalks in certain parts of the City and recommend that they take a careful survey of them in their respective wards and report to this Council, at its next regular meeting, all sidewalks that need renewal. In conclusion we would again call attention to our communication of June 13th 1882, which was referred to the committee on Finances, and would further say, "Tempora mutantur sed mens nostra immutabilis"

Report of Committee on Public Grounds & Buildings.

1. The report of the Committee on Finance to whom was referred to us the vacation of the old Broadway Cemetery, would respectfully report after having examined said ground we find there are about 175 bodies to be removed therefrom and the entire expense will be between $500. and $600.

2. In relation to the petition of Saml Shoaff and others asking that the east side of the market House be placed in respectable shape we would recommend as there is a lot of useless Telegraph Poles, old Iron, and worn out trash of the Fire Department that your Honorable Body authorize the Committee on Fire Department to sell the old Iron and said poles to be turned over to the Street commissioner so he can have the same sawed up in blocks to be used for Street crossings.

3. We further recommend that the Committee on Streets and alleys be and they are herby authorized to remove the scale not in use anymore, as the same is worthless and a nuisance to said Street

4. Having called upon the Trustees of the Water Works they assured us that they will remove the pipes lying on said Street as soon as possible, to their proper places. After said work is all done we will be able to put said Street in good condition.

Water Work's Estimates allowed,

The Water Works Trustes submitted the following Estimates, viz: James Woulfe $42.50, C L Olds & Co $53.00 Robert Ogdrn $44.48 Bass Foundry & Machine Works $73.95. August Geberding $27.60. James M. Patton $296.25. Killian Baker $197.67. A Battersley Son $226.39 Water Works Pay Roll $111.75. M Laughlin & Bowen $82.78. Ballis & Langohr $304.13. James Woulfe $94.26. Coombs & Co $1.64 C R. Jones $8.10.

All of which were allowed by council.

Report of City Attorney.

1. I have recivd notice from the Attorneys of John H Bass, that he had a claim for $150.00 damages, occasioned his lands by R. D. Wood & Co in building the Water Works. I have notified Mr. Bass that the damage was done by R. D. Wood & Co, and over the protest of the City officials, and that the City could and would if required, furnish him with sufficient evidence to secure a recovery against said R. D. Wood & Co for said damages.

2. I have prepared the record for an appeal of the Hanna case

to the Supreme Court, This case was tried some months ago and a recovery had against the City for $500.00, The subject of this case was referred some time ago to a select Committee but no action taken, I now advise the Council that some definite action must be taken in this matter by the next regular meeting of the Council.

3. In the matter of the question submitted to the Street-Commissioner and myself as to whether or not the main & Clay Street crossing of the tracks of the New York Chicago and St Louis Rail-road was or was not within the City limits, I report that said Rail-road crossing is not within the City limits

Signed Henry Colerick
City Atty,

First and Third Sections concurred in, Section two In reference to the Hanna case referred to the Mayor, City Atty and Committee on Finance with instructions to lay the matter before the County Commissioners and request that the Board of Commissioners Enter, pay, settle or take charge of said case, and that said Committee report at next meeting

Report of Street Commissioner.

1. In relation to the report of the Finance Committee instructing me to report to the Common council what is the usual price paid for team labor in the City or what Could I employ teams for at any time to work for the City, would respectfully report that as a general rule $3.00 per day is paid, with the exception of some short and heavy employment may pay $3.50 per day, I should therefore conclude that $3. per day is fair wages for team labor in the City,

2. I also wish to report that the old wooden Sewer on Hoagland Avenue and Williams Street is rotten and is caving in in several places, It may be necessary to put this old Sewer in good condition for the reason that the new sewers lately built are drained into it.

Signed D C Rice
Street Commissioner.

An Ordinance, amending section 1. chapter 20, of the revised Ordinances of the City of Fort-Wayne,

The Ordinance was read a first time now and on motion referred to a Special Committee (appointed by the Mayor) consisting of Mess Hellis. Vordmark & Boltz.

Councilman Kettler introduced the following.

Whereas, At several points in the east end of the City it becomes an urgent necessity to construct small Sewers in place of the present wooden ones; and.

Whereas, The size and direction of these minor or branch Sewers cannot be ascertained before it is decided on what street and which direction the main or district

Sewer is to be built; thereupon it-

Resolved, That a district sewer be built on Clay Street, commencing at Lasselles Street and ending at mouth river, of such dimension and material as may hereafter be described by the City Civil Engineer and approved by the Council.

The above resolution was referred to the Committee of the whole by the following vote viz: Yeas, Mess. Allis, Baltz, Dorhuman, Keelle, Muhler, Michael Pape, Reese, Vordmark, Welch, Wolf, Yergens, (12) nays none

By Vordmark.

Resolved, That the City Civil Engineer be and he is hereby instructed to advertise for sealed proposals for gravelling West Main Street from Jackson Street to the river bridge, with screened river gravel in connection with the bids on the same improvement for macadamizing the same.

The following communication was then read,

The undersigned respectfully represents to your Honorable body that he has signed a bond for the faithful performance of building a sewer on Griffith and West Main Street and Broadway; the contractor being Joseph Bowers of this City. to bring acquainted with said Joseph Bowers abilities and responsibility as contractor and builder of sewers,

I hesitated to signe when requested, but after being time and again solicited by some of your City Officers who assured me that they would see that I should not get in any trouble whatever,

I under such forbidden signed my name. Now I find it to my satisfaction that the representations your City Officials made to me prove to be a failure and said Joseph Bowers is in my opinion not a proper qualified person as a contractor for such a responsible and particular job or contract, not having the necessary knowledge and Education to Erect such work and the building of said Sewer by said Joseph Bowers will undoubtedly cause trouble and damage to the property owners as well as to the City for want of skill, etc.

I therefore ask your Honorable body to reconsider the action taken on giving the said contract to said Joseph Bowers and give the same to the best lowest bidder, such as is skillful and responsible

Very respectfully submitted

Report of Special Committee on Broadway, main & Griffith St. Sewer

Your Special committee to whom was referred the matter of the contract and bond for sewer on Broadway, West Main and Griffith Streets, respectfully report that on investigation we find that the contractor Joseph Bowers has been urged divers times to begin work in order to complete the same within the contract time, but up to this time no work has been done except a little digging which was paid for by the bondsman, and the contractor has been on a continuous spree for several weeks past, and has now left the city and abandoned said work, and owing to the manner in which the contract was procured, and the improper manner in which the bondsman alleges his signature was procured and the character of the contractor, we feel satisfied that the contract would be declared null and void if contested. Wherefore we recommend the passage of the resolution herewith reported.

We herewith make a part of this report a communication from F. Eckert bondsman

The report of the Special committee was concurred in by Council.

The following communication referred to above was then read.

Fort Wayne Ind July 19th 1882.

C. Hattle, J.W. Vordemark, & A Wolf,

Special Committee appointed by his Hon. the Mayor, and whom is referred the Communication of the undersigned concerning the Contract and Bond for the Sewer on Broadway West Main & Griffith Streets,

Gents,

In addition to what I have stated in my communication to the Common Council, I hereby inform you that the contractor in question has left the City for parts unknown, with uncertainty of ever returning again, Also that I will under no circumstances be, or be held as his bondsman, as I am sure that on points already stated with more important points in addition the Courts will clear me.

Very Respectfully
F. Eckert

Statement of Strst Commissioner and Asst. City Civil Engineer.

Mr. O'Brine, Strst Commissioner, notifies the Council that he Bowers contractor for Broadway Main & Griffith Strst Sewer, informed him on the 18th day of July 1882, that he did not intend to do any more work on that Sewer, and that he threw up the job. That Eckert was going to do the sewer and that he would have nothing more to do with it.

Signed Dennis O'Brine

Daniel McKendry,

Mr Joseph Bowers on yesterday made the same statement in substance to me.

Report of City Attorney

1st In the matter of the petition of John M. Miller for refunder of taxes alleged to have been paid under protest. I report that at first I thought he would be entitled to a refunder of $22. but after a full examination of the claim I am well satisfied that whatever taxes he paid, were voluntarily paid and that he is not entitled to a refunder for any sum whatever. Therefor, I recommend that his petition be not granted.

2nd In reference to the claim of Judge Zollars and Ellison and Windle, I report that I find that the case of R. W. Wood & Co. vs the City in the United States

court has been tried and won by the counsel employed by the City, and that the only recourse left for Wood & Co. is an appeal to the United States supreme court. I find that they have accomplished all that was expected of them by the City and I report that according to the agreement made with them by the Finance Committee in my presence, their bills ought to be paid.

3rd I have written the Gutta Percha and Rubber Co. that unless they replace the broken and defective sections of hose, as per contract, the City will withold the guarantee fund left as security by the company. The contract time does not expire until September 11th 1882.

4th In reference to the petition of Matthias Lynch and others asking for permission to lessen the width of Kinsas Street at a point in Wells first addition, refered to me by the Chairman of the Committee on Streets and Alleys I report that the Council have no right to grant such petition, as the street as it now exists conforms to the plat as laid out and dedicated for a public street by the owners.

5th I ask until the next meeting to report in reference to sundry claims for refunders and in reference to the new ordinance for repair of streets and side walks.

Report of City Civil Engineer

I would respectfully suggest that in view of the proposed construction of a main or district sewer for the benefit of the southeastern portion of the city which will incur an expenditure of from $30,000. to 35,000. the main part of which will have to be expended before the parties assessable can be reached: that some provision should be made by which the benefits should be determined

and the assessment list prepared before the final completion of the work, or as soon as the actual cost of the improvement is ascertained after the contract is awarded. I am satisfied that 10 per cent, can be saved by giving the contractor approximate estimates based on the final assessment either for collection or to use as collateral in obtaining funds for material and labor.

Report of City Treasurer

John P. Koch was taxed on duplicate of 1881 with a lot and small amount of personal property. As this stood on the duplicate there was nothing to lead any one receiving the taxes to suppose that it was not correct, or that the amount there charged was not all he should pay. He paid this tax as charged in due time, but we have since discovered that the personal property charged to him on the duplicate was not his, but should have been returned against another person, and that instead of 25 cents personal tax paid as charged with his lot he, he should have paid $16.85. He expresses a willingness to pay the difference between the tax which he has paid and that which he should have paid, but is unwilling to pay penalty. If he had not been taxed with personal in connection with the lot, there would have been some reason for the person receiving the tax to have interrogated him about his personal and thus have been led to get the correct amount, and in case of this not being done I should have paid the penalty myself and raised no question about it, but as the assessment as returned was such as to lead the party receiving the tax to suppose that all was not right. I do not feel that any fault is chargeable to my office and therefore to save time and further trouble to Koch I make this report for such action as you may deem proper, Signed C M Barton, Treas. The Treasurer was instructed to receive taxes from said Koch without penalty

Report of Assessor

I respectfully beg leave to report that Henry W. Fry is entitled to an overcharge of $7.00 on 83/100 of an acre, for the year 1881, as the same was erroneously charged.

Signed Louis Jacquel, City Assessor

Report concurred in and Clerk ordered to issue an overcharge.

Report of St Commissioner

1st In the matter of resolution of Councilman Alter instructing me to repair the market space on Barr Street, would respectfully report that in my opinion it is useless expenditure of money to repair it, as the pressure floor and stringers are nearly rotten. I would therefore recommend that the whole improvement be made new of either brick or pine lumber. To lay it in brick would cost the city $400; to lay it in pine lumber would cost the city about the same as brick.

2nd In accordance with the resolution of Councilman Alter instructing me to notify the owners of the north half of lot 25 Nanmas out lots to the city of Fort Wayne, to fill up or drain said lot, would report that I have served the proper notice and it has not been complied with. I therefore caused said lot to be filled by Anselm Krack at a cost of $16.50

3rd In the matter of resolution of Councilman Wessel instructing me to notify the owner of lot No. 236 Lewis addition to the City of Fort Wayne, to fill up or drain said lot, would respectfully report that I have served the proper notice and it has not been complied with. I therefore caused said lot to be filled by Anselm Krack at a cost of $9.75

Signed. Dennis O'Brian, St Commissioner

First section referred to Committee on Streets and Alleys balance concurred in.

Report of St Commissioner

According to the instructions of the Common Council I have served the legal notice upon the owner of lot No 236 Lewis addition to the City of Fort Wayne, to fill

and drain the said lot. Said owner having failed and neglected to do so within the time allowed by law, I caused the same to be done at an expense of $9.75

Signed. Dennis O'Brian, St Commissioner

I certify that the abov was done to my satisfaction.

Signed C.S. Brackenridge City Civil Engineer

Report was concurred in.

Report of Street Commissioner

According to the instructions of the Common Council I served the legal written notice upon the owner of the north half of lot No 25 in Wamas out lots, plat "A" to the City of Fort Wayne to fill and drain the said lot. Said owner having failed and neglected to do so within the time allowed by law, I caused the same to be done at an expense of $16.50.

Signed Dennis O'Brian, St Commissioner

I certify that the abov work was done to my satisfaction

Signed C. S. Brackenridge, City Civil Engineer

Report was concurred in.

Report of Chief of Police

I respectfully report that 264 oil and 56 gas lamps were found not burning during the month of June 1882.

Signed H. M. Diehl, Chief of Police

Report was refered to Committee on Gas and St Light.

Report referred to Committee on Water Works

Report of the Trustees of the Water Works.

We herewith present for your action several vouchers on account of construction, amounting to $1,315.83

Also a contract and Bond of Wilding & Son for furnishing coal to the Water Works Engines for the ensuing year, and recommend action upon the same at this time, as the supply of coal on hand is now about exausted.

Also a contract with F. Eckert for furnishing water for his packing House out-side of the City limits. No provision is made in this contract for fire protection, as we regard that as a matter entirely within the province of the City Council.

Also a contract with Chas Boseker for Boxing up the Water pipes of the West Main Street Bridge for the protection of the pipe, Which we regard as a very important matter.

The recent unprecedented and disastrous overflow of Spy-Run has raised the question whether anything short of a large and costly structure at and around the dam will suffice to guard against and repetition of the Experience of last week, since the havoc caused in the structure heretofore built, the Trustees are in doubt how to provide one that will be absolutely safe and permanent, Not being Engineers ourselves, nor practical dam builders, and having no Engineer in our Employ for the purpose of drawing plans and specification for the proposed improvements, we respectfully suggest that the Council have the same done and instruct the Trustees to advertise for Proposals for doing the work according to such plans. When this is done we shall be better prepared than at present for making recommendations as to what course to pursue.

Some complaint having been made about permitting the space near the Market House to be used for storing Water Works pipes. If the Council will designate a suitable place in the central portion of the City. The Trustees will have the Pipes removed without delay

Reg Session Aug 8/82

The Water Works Trustees submitted the Contract & Bond of Wilding & Son (H.J.) whereby they agree to deliver at the Water Works Engineer House all coal that may be required for one year at the rate of $3.25 per ton if delivered by side track or $3.40 per ton if not.

Contract & Bond approved by Council.

The Contract (H.J.) with Fred Eckert, agreeing to furnish him with Water at his Packing House for $150.00, was submitted by the Water Works Trustees and referred to the Committee on Finance and City Atty.

The Trustees of the Water Works submitted a Contract with Chas Booker for boxing the Water Pipes across the St Marys River on West Main St at .40¢ per lineal foot.

Referred to Committee on Finance.

Report of City Attorney.

1. In the matter of Hanna Administrator vs. City I have had record of Evidence reduced to long hand by the Stenographer at a cost to the City of $55.00 There remains but a couple of days for an appeal to the Supreme Court if desirable. The council can no longer refer this matter, it must either tonight order the appeal or abide the judgement which was for $5,500. The case possibly may be reversed though it is very doubtful. I have no recommendations to make but ask for instructions.

2. In the matter of the Petition of Harry H. Vernon for relief from erroneous assessment; I report that Mr. Vernon subscribed to an affidavit which I prepared showing that he never owned the property listed and assessed; that the same was listed under a misapprehension; that it was so erroneously listed by direction of the assessor. Owing to the fact that the petitioner has sworn to these facts, I would recommend that his petition be granted and that the Tax charged be charged to C. Aultman & Co and Aultman Miller & Co., who were the real owners of the property.

3. In reference to the Petitions of John H Hill rotten for a refunding of Taxes paid them in 1878 and 1879, I would recommend that their Petitions be not granted.

4. In reference to the bill of costs in case of Taylor vs City, I have requested Clerk Spencer to furnish the City with an itemized statement of the costs. When this bill of particulars is furnished I will report to the Council upon claim.

5. I have prepared the proper Ordinance for the vacation of certain

lots used for religious and educational purposes.

6. I have prepared the proper Ordinance as requested for amendment of Police ordinance.

7. I have prepared ordinance extending authority of Street Commissioner in making Street and Sidewalk repairs at the expense of Property owners, when such repairs are necessary.

8. I would respectfully request that the claim of Ford Upmeyer to compromise Water Works condemnation suit be referred to some Committee.

Report of City Civil Engineer.

In the matter of the resolution of Councilman Vordmark asking information as to the relation to the comparative sanitary advantages and the benefits to the public by the construction of the proposed district Sewer in the East end. I report as follows: On the first point, there is no question that the further Sewerage matter is delivered down stream the more the sanitary advantages are provided for. The second proposition as to which of the two proposed routes would be of the most general utility, I leave to the judgement of a majority of your Honorable Body, who have given the subject and locations your personal inspection.

which report was concurred in by the Council.

Report of City Attorney

1st I am of the opinion that the Common Council have no power to make assessments, give estimates or collect money for sewers before work is commenced, and then the city have only the power to collect to the extent of the work done. In other words, the City can only give estimates, and the estimates can only be given upon work already done.
2nd I have prepared, at the direction of Councilman Boltz, an ordinance to prevent persons from crossing rail road tracks while safety gates are down, or while they are being let down. I am of the opinion that the ordinance is in all things. Its passage would tend to prevent accidents at such crossings.

Reg Session Aug 22/87

3rd In the matter of the bill of costs in the case of Taylor vs the City. I have carefully examined the same and report that a reduction of $16.90 should be made; $7.60 from Trenton axis feet, $2.50 from Muntont fee and .80 cents from 5 percent fee, making the correct amount, $57.60 instead of $68.50, which corrected sum I would recommend to be paid.

4th In relation to the proposed contract for furnishing water by the Water Works Trustees for Eckarts packing house. I report that no such contract can be made with Eckart for such supply that can be enforced by either party against the other. The Water Works were built by the City for the inhabitants of the city, and any contract to supply water to outside parties wold be ultra Vires, or beyond the powe of the City under the charter, and the making of any such contract might be enjoined by any tax payer. Those owning suburban property desiring to enjoy the fruits of City government should petition for annexation, so they may bear a just share of its burdens.

5th In reference to the ordinance providing for the building of a sewer to drain the Seventh Ward and other territory, I am of the opinion that said ordinance are defective in ordaining that the benefits shall be assessed by the Engineer, assisted by a Committee of the Common Council. The charter gives the Engineer no such power, nor does it authorize the Council to delegate such power to him. It may appoint a committee to make such assessments, and when made they must be notified by the Council. Another mistake in the ordinance is the stipulation that the expense of street and alley crossings shall be at the expense of the City. The Council have no such power. The assessments of benefits must be upon all lots and lands benefitted, and if it is a fact that any part of the streets or alleys is relieved of surface or storm Water, the Council may assess such amount against the City as it just and right, but in no event can they determine that the City shall pay for street and alley crossings in advance of an assessment legally made. After consultation with the Chairman with the Chairman of the Committee on assessment and Taxes I am of the opinion that it would be well, as it is entirely legal for the Council, as a Committee of the whole, or by the

appointment of a Committee, to determine what territory will be benefitted by the building of said sewer and to recite in the ordinance what territory will be affected by the same, not to describe each particular lot or piece of land, but to fix the boundaries of the lots and lands sought to be affected. I do not mean that the Council shall assess the benefits then, but merely as a preparitory to building said sewer they can thus determine what is to be drained, and I would say to the Council that when the sewer is under construction and an estimate given that the same should not be collected from the abutter, but of all those who will be benefitted when the entire sewer is completed.
Second and third sections concured in and the City Clerk instructed to issue an order for the amount recommended in section three; fourth, concured in; and fifth referred to a Committee consisting of Councilman Hetzler, Hamilton and Wolf, to bring in an order according to the instructions of the city attorney

Report of Committee on Streets and Alleys

1st In relation to resolution of Councilman Wolf to readvertise for new proposals to grade and gravel the alley running east and west between Baker and Brackenridge

street from Calhoun to Hanson streets, would respectfully report in favor of same.

2nd In favor of resolution of Councilman Welch to grade and pave with brick the sidewalk on the west side of Calhoun street from Grand street to Creighton avenue.

3rd In relation of remonstrance of O.P. Morgan etal. we report adverse, as it is impossible to grade and gravel one half of said alley and make a good job, Therefore we respectfully report that the whole alley be graded and graveled from Pare to Clinton street.

4th In favor of resolution of Councilman Welch to grade and pave with brick the sidewalks on both sides of Poplar street from Fairfield avenue to Oakley street.

5th In favor of resolution of Councilman Boltz to grade and pave with brick the sidewalk on the south side of Second street bordering on lot 75 North Side addition.

6th In favor of petition of M. Diehl & Co to erect a scale on Montgomery street providing that whenever Montgomery street is opened that M. Diehl and Company shall remove said scale and repair the street in good condition to the satisfaction of the Street Commissioner, at their own expense.

7th In favor of resolution of Councilman Leter to grade and pave with brick the sidewalks on the west side of Hanna street bordering on lots 234 and 236, Lewis addition.

8th In favor of resolution of Councilman Welch to grade and pave with brick the sidewalks on the north side of Creighton avenue, instead of from Calhoun street to Hoagland avenue. (from Webster stret to Hoagland avenue)

9th Adverse to resolution of Councilman Dochman to grade and pave with brick the sidewalks on the south side of Madison street from Division street Farmer street, as the present walk is good and will do for at least two or three years yet.

10th In favor of resolution of Councilman Wessel to grade and pave with brick the sidewalks on the north side of Murray steet from Calhoun stret to Lafayette street and we would recommend that the property owners be allowed to use cedar blockt for paving the sidewalks at their gate approachet leading to their yardt, as brick is not a fit material to use for heavily loaded wagons to drive over.

11th We would respectfully report in favor of rejecting the proposal of Eckhart and Decheiner for macadamizing or graveling west Main stret from Jackson stret to the St

Marysville bridge, as the bid is entirely too high.
First to fifth section was on motion concured in, 6th refered to City Attorney to prepare contract and bond, 7th to 10th concurred in, 11th refered to Civil Engineer to bring in a report as to how it compared with the cost for macadamizing other streets per lineal foot.

Report of Special Committee

Your Special Committee appointed at the last meeting of this Council in relation to the 12 inch clay pipe sewer in the alley between Lewis street and Douglas avenue from the west line of Harrison street to the brick sewer on McClellan street, would report as follows: That the 9- inch clay pipe sewer in the west end of said alley, the property holders joining thereon have constructed the same at their own expense and therefore we report that the 9- inch clay pipe sewer be taken up and the same used commencing on the west line of Harrison street and the balance of said sewer to be 12- inch clay pipe to the brick sewer on McClellan street and the same charged to the property joining thereon which is benefitted by said improvement as we deem it a hardship to assess the property owners on the west end of said alley as they have been assessed for the McClellan street sewer, also for the present 9- inch clay pipe sewer.

His Honor Mayor Zollinger verbally reported that he instructed the 1st Commissioner to serve the proper notice in relation to Hayden Street to have all obstructions removed. The Stret Commissioner says he reported to Council and his report was refered to the City Attorney, Beaver, Miller and Co then petitioned asking for further time which was granted by the council.

Section 1 of the ordinance in relation to animals running at large was refered to the Committee on Publ Grounds and Buildings to report a site for said pound.

Report of City Attorney

1st. The Hanna case is being prepared for, and before the next meeting of the Common Council will be in the Supreme Court. The Zehr case it now ready for Supreme Court, nothing remaining to be done but the filing of the record in the Supreme Court. The executions issued in these cases were but the result of an anger of counsel prosecuting suits, in having them taken to Supreme Court. Their executions are harmless.

2nd. It is my opinon that the Common Council have the right to widen the width of a public sidewalk if necessity requre it.

3rd. In reference to the report of the City Civil Engineer, would recommend that the Stret Commissioner give the proper notice for removal of the obstructions, so that contracts may be completed. The law gives ample and sufficient remedy.

4th. In reference to east side of Market Space, I must ask until next meeting to report.

5th. I respectfully report to the Council that Mr J. J. Decker, who, I learn is lying very low with typhoid fever is desirous of assigning his contract for the building of certain sidewalks to Mr C. Grafmiller, believing that he could not complete his contracts without great loss to him, I have prepared for him a legal assignment of his contracts subject to the ratification of the Common Council. I prepared a new form of bond for assignor to give, which I understand he has given to the satisfaction of the Honorable Mayor. Therefore, if the Council is willing to make said assignment,

everything is in proper shape for the ratification of the Council.

6th. While the contract with the Gas Light Company requires that the Company shall keep in repair all lamps, it does not require that the Company shall replace those that have simply worn out. Now in the matter referred to me, if the lamps are simply old and worn out, the City must replace them, while the Company while the Company must keep in repair those that fail from other causes.

Signed Henry Colerick, City Attorney

First, second and third sections were on motion concurred in, fourth, granted and fifth and sixth concurred in.

Report of Street Commissioner

1st As there is a large number of the short gutter crossings in the principle parts of the city that need to be made over, and as the city have no contracts for any kind of lumber only oak, I would respectfully recommend that they would purchase some 3 inch pine lumber to make gutter crossings, as it would be more suitable for that purpose for oak lumber warps in a short time on said short crossings.

2nd I have collected a large amount of oak blocks from the east side of Calhoun street between Berry and Main streets, and as soon as the other side of said street is torn up, I shall gather all the blocks that are in a fair condition. Those blocks I have used in repairing Calhoun and Columbia streets, and I would respectfully ask your Honorable Body if you are desirous of having me continue repairing on the paved streets that are not to be repaved this season.

3rd I would respectfully report that I have taken about two hundred yards of good gravel out of Spy Run and may get about seventy five yards more.

4th According to the instructions of the Common Council I served the legal written notice upon the owner of lot 16, Tindis second addition to the City of Fort Wayne to fill and drain the said lot, said owner having failed and neglected so to do within the time allowed by law, I caused the same to be done by Anselm Krack at an Expense of $6.30.

5th According to the instructions of the Common Council I served the legal written notice upon the owner of lot 56 in Greens sub addition to the City of Fort Wayne to fill and drain the said lot, said owner

owner having failed and neglected so to do within the time allowed by law, I caused the same to be done by Anselm Krack at an expense of $19.37

6th According to the instructions of the Common Council I served the legal written notice upon the owner of lot 63 in Greens sub addition to the city of Fort Wayne, to fill and drain the said lot. Said owner having failed and neglected so to do within the time allowed by law, I caused the same to be done by Anselm Krack at an expense of $21.00.

7th According to the instructions of the Common Council I served the legal written notice upon the owner of lot 17, in Kinders second addition to the city of Fort Wayne, to fill up and drain the said lot. Said owner having failed and neglected so to do within the time allowed by law, I caused the same to be done by Anselm Krack at an expense of $14.62

Report of Water Works Trustees

We delire to inform you that some parties have recently been removing sand or gravel from north of the Water Works Engine House, near the Filtering Basin, thereby endangering the Water Works grounds, fence and Filtering Basin. We wish to enquire whether any body has authorized such removal, and to ask your honorable body to prevent any further action of the kind complained of. In reference to the resolution instructing that the water pipes be removed from the vicinity of the City Wall, we would recommend that as the Stipt Commissioner can have said pipes removed at smaller expense than we can, that he be instructed to remove them as cheaply as possible, and the Water Works Trustees will pay for the same out of the revenue of the works. Some time ago a contract for boxing up and protecting the pipe across the West Main Stipt bridge was submitted to your honorable body for ratification, which has not yet been done. As the Trustees by law cannot have said work done until their contract is ratified by the Council, and as the matter is one of much importance, we suggest the propriety of ratifying said contract without further delay, so that the work may be completed before bad weather sets in. The weather at present is very favorable, and advantage should be taken of it. We submit herewith vouchers for reservoir, extensions &c, amounting in all to $826.49. The total cost of the work of laying the West Water Stipt Extension, lately completed by the Trustees, was $202.75, or 29 1/10 cents per foot.

Report of Street Commissioner

As requested by the Trustees of Water Works and instructed by your Hon. Body to remove the Water Pipes from the market place on Barr Street, and charge the cost of moving said Pipes to the water works fund, would respectfully report.

That I endevored to obtain some suitable Truck Wagons to move said Pipes but could not get any except at considerable expense. I therefore caused them to be moved by the Pelts Box and Lumber Company, at an expense of $25.00; At the same time a quantity of old scrap Iron belonging to the City, was

cleaned off and sold amounting to $33.20, which sum was turned over to the City Treasurer, and for which I hold his receipt. There was also enough scrap iron belonging to the Water Works sold to pay for the expense of the removal.

2nd I respectfully beg leave to report that the contract with Kelian Baker for furnishing lumber for the City expires on the 25th day of October 1882.

Report of City Attorney.

1st. In reference to the resolution of Councilman Botz as to the existence of a legal sidewalk on the east side of Market space, I report there is and has been for more than thirty years a legal sidewalk on said East side of market space, And that if a new walk is built thereon the expense therefor can be legally collected from the property holders.

2cd I have prepared an amended Ordinance in the matter of the Broadway Sewer, which I deem in all things regular and legal, and sufficient to give the relief sought, It in no manner affects the price or cost, in no manner changes its course or construction, it adds to no mans burden but simply changes the manner of making the assessment and the time of giving Estimates.

3cd I prepared the proper Contract with Modermott & Clayton-

Total for the four months		75,496.82

Your Committee has been accustomed to examine the City Treasurers Cash accounts on the morning of the first of September in each year.

At the first meeting of the Common Council in September last we reported the amount of cash on hand & we now submit a brief summary of the receipts & expenditures for the year ending August 31 1882, which period is now fully covered by our reports.

The total receipts from all sources, (exclusive of amount realized on sale of bonds $50,000 negotiated to redeem a like amount falling due) from September 1st 1881 to Sept. 1st 1882 was $171,452.42

The total expenditures, for all purposes including interest on the bonded & floating debt, but exclusive of any expenditure on account of Water Works & exclusive also of bonds redeemed with proceeds of the sale of bonds mentioned above was 121,492.53

$40,959.89

The amount paid by the City, during the period under review, on Water Works account, including interest on the amount borrowed for their construction, loans to the Construction fund &c was $43,938.97

Leaving a balance over all expenditures of $6,020.[illegible]

[illegible]

Reg Oct 24/87

One fourth of our tax levy has therefore been paid out on account of Water-works, Notwithstanding this heavy burden we show a handsome decrease in the debt during the year. And had this one item been out of the way we could have paid off, in the past three months over $50,000.00 of the bonded indebtedness or have reduced the levy to .75¢ on the $/100. valuation.

Over .60¢ of this expenditure on account of waterworks may be called extraordinary is not likely to be demanded in succeeding years.

The business of the City of Fort-Wayne has been done more cheaply than that of any other City of equal size in the United States, the expenditure being little in excess of $5.00 per capita. With like care and prudence exercised by succeeding Councils the debt of the City can be rapidly reduced without unduly burdening the tax payers

By Fort-Wayne Jenney Electric Light-Co

We will furnish the Jenney Electric Light for lighting the Streets of your City on the following terms.

One hundred and twenty Dollars per annum for each light and ten cents for each carbon burned,

The Carbons are 12 inches long and will burn about ten (10) hours.

The lights to be run two hundred and Eighty Eight-(288) nights by the Philadelphia schedule and 24 nights in addition to said schedule each year,

The poles and masts or towers to be furnished located and maintained by the City and all other expenses of putting up lights such as Wire &c to be born by us and we to pay all expenses of putting in carbons and taking care of lights and lines,

The lamps to be the usual standard of 2000 candle power each.

Or if the City prefers to buy the plant and run the lights themselves, we will sell the apparatus for one hundred and twenty five dollars per light including Dynamo Machines and lamps complete and parafined insulated Copper Wire for lines at 30 cents per pound No 6 the size needed runs about 8 feet to the pound.

We estimate that 60 lights 40 on masts or towers and 20 at the street-crossings as per schedule below will give you more than double the light you now have.

I am assessed for the Sewer running betwen Ewing and Griffith Sts. on fractional Lot numbered 5 Block number 33 Ewings Addition more than Forty Dollars when I should not be assessed at all; for, if I want to drain into the Sewer, it would be clearly better to drain my Lot along Jefferson Street into the main Sewer for the construction of which the Lots, of which mine is a part, has been assessed Eighty seven 80/100 Dollars

W Fleming.

On motion the above communication was referred to the Special Sewer Committee hertofore appointed viz The Sewer Committee and Mess. Hamilton & Michael,

Wm Kohn & others presented a petition asking that an investigation be made of the grade of the Alley running east and west betwen Washington and Jefferson Streets, from Monroe to Hanna Streets. The petitioner believes that said grade is not made sufficiently slanting to allow the water to run off but to collect and become Stagnant.

Communication from the Wabash St Louis & Pacific Ry Co

There is a matter in dispute betwen this Company and the County of Allen and the City of Fort Wayne regarding the assessment of the property of this Company within the limits of the City of Fort Wayne. The question in dispute is the proper construction that should be put upon Sections 93, 94 and 95 of an act concerning taxation in the State of Indiana approved March 2nd 1881, In order to place the question at issue, this Company proposes to enjoin the County from the collection of any illegal taxes as may have in their opinion been assessed against them thus creating a test case to be taken to the Supreme court for adjudicated and for a decision which will govern future cases of this nature, The issue with the City is identical and involves the same question as with the County.

The Attorneys of this Railway Company ask if the City will hold the matter in abeyance so far as concernes the City pending a decision in the case of the County, Thus avoiding the trouble and cost of carrying on two suits at the same time involving the same questions

Signed Christian Boseker, C McCulloch, James Brown } Trustees of the Water Works.

Which report on motion was referred to the Committee on Finance,

Communication from Water Works Trustees.

The undersigned respectfully inform your honorable body that at their regular meeting held this day, claims against the Water Works were allowed amounting to $599,91. There is only $495.01 in the maintenance Fund leaving the sum of $104.90 to be provided in order to meet current liabilities which amount we ask your honorable body to appropriate, As the rennes of the works will be very light until the 1st of next January, it will be necessary to make further appropriations from time to time to pay running expenses, aggregating probably $650.00. As an explanation of this state of affairs, we furnish the following information;

The rennes of the work since the beginning of the present fiscal year, May 1st, 1887, have been $7,926.39. The amount placed in the maintenance Fund, including balance on hand may 1st, was $10,736.80. On this fund orders have been drawn as follows; For maintenance $4,149.67; for loans for construction purposes, dam repairs, reservoir repairs, service connections and Extentions $6,091.12; total expenditures, $10,241.79. Balance on hand $495.01

We therefore request again that the necessary appropriations be made to pay present claims

Signed C McCulloch, James Brown } Trustees of the Water Works.

Report of Committee on Streets and Alleys.

1st We have awarded the Contract to Kellian Baker to furnish the City with Lumber for one year.

2nd In relation to Final Estimate of Ehrhart and Drthemier for grading

Macadamizing and paving the gullies on Columbia Street from Barr & Lafayette, We find the same correct and recommend the Estimate be allowed

3rd In relation to Final Estimate of L. Groffmiller for grading and paving with brick the sidewalks on the West side of Lafayette Street from Columbia Street to main Street; We find the material good and the work done in a workman-like manner and recommend the Estimate be allowed

4th In relation to Petition of H. Kohn et al; in reference to grading and gravelling the alley running east & west from manor to Hanna St. between Jefferson & Washington Streets, We find the material first-class, the grade is a little low in the centre of alley and the contractor ought to haul four or five loads of gravel and put thereon to give the alley the proper grade.

5th In relation to petition of Barnard Kramer et al, in reference to the alley, which has recently been graded and gravelled between Jefferson & Madison Street's from Lafayette to Elm Streets, We find the material very poor and it looked to us more like poor red sand than gravel and the grade is not sufficient to allow the water to run off.

6th In favor of petition of L. S. Hilbruner to erect a small Platform to be 18 inches square in front of his place of business No 1 West Berry St.

7th In favor of petition of J. B. White to fill up the old sewer on Glasgow Avenue as the same is in a dangerous condition, and we would respectfully report that the Street Commissioner be instructed to fill up the same at once to the proper grade of said avenue.

Referred on motion to the Committee of the whole.

Report- Committee on Gas and Street- Lights.

Your Committee on Gas and Street- Lights beg leave to submit the following report.

We have investigated the propositions for lighting the City and herewith- submit Contracts with the Fort-Wayne Gas Light- Co and the Ohio Valley Street Lighting Co, As we find them to be the lowest and best- bidders,

The proposition of the Jenney Electrice Light- Co is a little too indefinite for us to make accurate calculations as to the cost of lighting the City by Electricity and inasmuch as the other contracts have about expired and it would take considerable time to arrange for lighting by electricity,

We have deemed it best to submit contracts with the Gas Co and Gas-oline Company terminable in one year on 30 days written notice.

Report of Committee on Gas & Street Lights.

Your Committee on Gas and Street Lights to whom was referred the resolution to bring in some definite proposition for lighting the Gas district either with Gas or Electricity would report as follows, That owing to the absence from the City of the President of the Gas Light Company, We can report nothing definite. The Jenney Electric Light Co. propose to erect eleven lamps at the intersection of Streets from Water to Chicago St. on Calhoun and will light them, furnishing everything for $150.00 per lamp per year making a total of $1,650.00. this would displace 30 Gas Lamps @ $25.50 = $765.00. We hope to be able soon to present some definite proposition

Report of Committee on Gas and Street Lights.

Your Committee on Gas and Street Lights beg leave to submit the following report:

We conferred with the President of the Fort-Wayne Gas Light Company, and they state they are willing to enter into a contract to light the Gas district for a certain specified time, viz: either one year, two or three years, whichever the Council may elect, and according to the Philadelphia time table. Extra hours burning to be paid for in the same proportion.

We also had a conference with the Fort-Wayne Jenney Electric Light Company, and they made us three propositions as follows:

First. To erect thirteen lights at intersections of Streets and fit up with all necessary attachments the balance of the lamps in the Gas district (not displaced by the thirteen lights) and light them with Gasoline for one year for the same price the Gas Company proposes to do it. viz; $5,941.50; provided that the City will agree to give them the contract for lighting the entire City beginning January 1st 1884.

Second. They propose to light the entire City with ten masts or Towers 175 feet high each, containing forty-four lights and twenty low lights for $11,000 per year, they furnishing everything.

Third, They propose to sell to the City whenever it desires to purchase the towers and wires erected by them at cost and the dynamo machines at $100.00 per light.

All of the above propositions we submit to your honorable body for your serious consideration

1st I now report to the Council that no assessment for benefits by building of Sewers can be collected unless every peice of land not embraced in exemptions benefitted has been assessed, I understand that certain Church parsonages have not been assessed, and that they are believed by the Assessment committee to be benefitted

If this is so they must be assessed and placed upon the Tax Duplicate to assure or compell the payment of other assessments. Our Supreme Court has decided that parsonages are not exempt from taxation.

2nd I respectfully recommend that the City Civil Engineer be instructed to report to this Council at each meeting of this Council as to whether or not there has been due publication's of notice of Proposals, for doing of work by Contract. It is necessary that the Clerks record should show that contract work is done upon Contracts given to lowest bidders after due publication.

Report - Trustees of the Water Works.

Herewith we present a final Estimate in favor of James Woulfe for laying pipes for Extentions ordered by the Council. The Six Months probation having expired, this reserved percentage is now due him. We desire that it be paid from this Office, in order that it be withheld until some Water Works material loaned to the Contractor during the prosecution of the work be returned and accounted for, which settlement would have been made at the time of the last Estimate, had the Estimate been paid at this Office instead of from the City Clerks Office.

If all payments on account of Water Works are made from the Water Works Office, then all the transactions will appear on the books where they properly belong.

Report of Committee on Finance.

We respectfully report that we have carefully examined into the accounts of William Hruzl late market-master and we find after giving him the benefit of every doubt that he justly owes the City the sum of $291.50. We called him befor the Committee for an explanation but he had none to give. He offered the balance due him in Salary to fix the matter. Which offer was refused by your Committee. Upon the day fixed for examination he paid into the City Treasury the sum

of $46.00 leaving the balance above named, We has today ascertained paid in the additional sum of $76.00 leaving still due the sum of $215.50. At the meeting we instructed the City Attorney to demand of Charles Jacobs Esq Frederick Pickness the bondsmen of said Krug for said sum of $291.50. We have since learned that he has been arrested for the embezzlement of said funds upon the complaint of his bondsmen. We make this report without recommendation

By The Jenney Electric Light Co

We will furnish the Jenney Electric Lamps for lighting a portion of your City on the following terms for one year.

We will put up at our own expense 12 or 14 Electric lamps on Calhoun, Columbia, Main and Berry Streets and burn the same during the year per Philadelphia schedule and one hundred (100) hours additional if needed for the sum of One hundred dollars per lamp, payable in City Orders at par on the first of each month, and will furnish all carbons and take care of said lamps free of cost to the City.

If allowed to place the lamps at the Crossings of such Streets as we may designate will guarantie them to displace an average of 4 Gas lights for each Electric lamp put up and light said district better than it is now lighted. We make this proposition at this low figure expecting that before the expiration of the year, some arrangements can be made with your honorable body, by which we will get a larger district to light if we do not get the entire City but will leave all that to be arranged and contracted for in the future and will accept this without any condition

Signed Ft Wayne Jenney Electric Light Co

By Ft Wayne Gas Light Co

We have been lighting the Gas district with Coal Gas the past two years, furnishing the best possible light we could. How satisfactory this light has been to the public is for the Council to determine. We regret to say we cannot bid under the advertisement of the Gas Committee for the reason each months burning runs from 246½ hours in January to 130½ in June with a large increase in expenses during the (Multi) months, But as we understand the Hellhoy

resolution, we will renew our bid at $25.00 per post light and Extinguish and repair and burn by the Philadelphia time table and light such dark nights as the Gas Committee may direct at the same rates for extra burning

We are Manufactors of Gas, the more we can sell the less we can sell it for, the City being among our largest Consumers should we loose her consumption we cannot reduce the price of Gas until our consumption increases, which we had hoped to do next Year.

Report of Special Committee

We the undersigned appointed by your Honorable Body as a committee to visit the Capital and secure if possible such amendments to the present charter, and such new legislation as may be advantageous to City government, beg leave to submit the following report. We found the cities of Indiana mostly

Reg. Session Jany 9/83

all represented and all the delegates to the Mayors Convention seemed desirous of procuring only that legislation that would be of benefit. As representatives of the City of Fort-Wayne we made the following recommendations.

1st That the 43d Sub-division of the 53d Section of the act for the incorporation of Cities be so amended as to allow the legal assessment of Sewer benefits against the property of Churches, Benevolent Institutions &c,

2d That the act for the opening of Streets &c by Cities be so amended as to allow benefits assessed to be collected the same as delinquent taxes except that a penalty of 20. per cent be added.

3d That an act be passed allowing Cities to loan out their sinking funds in the same manner as the school fund of the State is loaned, under existing laws.

4th We presented the protest of Mr. Hatlbs Chairman of the Committee on Assessment and Taxes against the abolition of the Office of City Treasurer and Assessor.

All the above recommendations as well as the protest of Chairman Hatlbs were endorsed and referred to the permanent Committee appointed to properly present them to the General Assembly and secure favorable action thereon.

Besides the above the following recommendations from other Cities were made and endorsed.

1st An act to allow cities to tax and license every class of Vehicles using the Streets of Cities.

2d An act to extend the term of City Mayor to four years.

3d An act to compell County commissioners to work prisoners sent to county jail from Cities.

4th An act to make explicite the 61st Section of the Charter so that inhabitants of cities shall not be taxed for building of bridges by County board outside of City limits.

5th An act compelling the Equal Taxation of all real estate inside of City limits irrespective of quantity enclosed in any one Tract.

6 An act giving cities the right to charge and collect a dog Tax.

7 An act allowing cities to collect a money Tax in lieu of road labor Tax.

The Committee appointed to put the above recommendations in shape for passage consists of Mayor Grubbs of Indianapolis. Chairman Mayors Bundwell of Evansville, Zollinger of Fort-Wayne, Warden of Jeffersonville, Boyle of Huntington and Pierce of Lebanon

who meet in Indianapolis tomorrow at which time the Mayor of Indianapolis assisted by the City Attorney of that City will hear all the bills prepared for presentation to the General Assembly

We have neglected to state in the foregoing, that a bill was unanimously recommended to be passed by the General Assembly to so amend the waterworks law as to leave it optional with the common Council of Cities as to whether the Waterworks shall be managed by Trustees elected by the people or by a Committee of the common council

In submitting this report we desire to place of record a recognition of the kind and hospitable manner in which we were treated by the City officials of Indianapolis especially Hon Honor Mayor Hubbs and Councilman Pierson.

Report of Special Committee.

Your Committee who were appointed to investigate as to the cause of the water supply failure at the late burning of the first Presbyterian church fire respectfully report.

The examination occupied considerable time as we made the same complete, having examined sixteen witnesses, as we believed the question a very important one, of interest to all the property owners of the city. That there was a failure of water force at the fire there can be no doubt as is fully shown by the testimony of Chief of fire department Hillnecht. 2nd Engineer of Water Works Zollinger and Clerk of Water Works Board Wilson McDermott. Your committee from the evidence desires to say that they find that the fire department responded promptly and did all that could be done in their department to subdue the flames, the hose was speedily attached and the hydrants properly opened and water was only lacking to render their prompt efforts successful. Your committee is of the unanimous opinion that the failure to get sufficient water was owing to this mis-management of the water works department. Inspector of Water Works Iten swore that the mains were not frozen and that the hydrants were in good condition. While Engineer Turner testifies that from some obstruction his engines at Pumping House choked down. Engineer Turner testifies that the plug or hydrant at Eckarts packing house was open night of fire while Inspector Iten swears that it was closed. Inspector Iten testifies that 55 pounds of steam is sufficient for fire pressure while Engineer Turner recommends 60 to 70 pounds for every day ordinary pressure, Zollinger 2nd Engineer and McDermott, clerk of water works testify that shortly after the alarm the water pressure was about 65 pounds, while Clinton Bonnie testifies that he examined the water guage fifteen minutes after alarm of P & G fire and found the pressure between 40 and 50 pounds, while at the Eckart fire a few days after where the streams was good he found the pressure 110, Engineer Turner testifies that he

received written orders from Trustees Dec 1, 1881, to carry ordinary steam pressure of 50 pounds which he believes to be insufficient. He was never consulted in reference to fixing 50. pounds as the ordinary pressure but believes that 60 to 70 pounds ordinary steam pressure would do better service and give greater satisfaction to consumers. It appears that prior to the issuing of the above order by the Trustees limiting the steam pressure to 50 pounds the fire department never had cause of complaint, that at the Opera House Bijou and other fires they had ample immediate pressure and threw from water works hydrants as good streams as from steamers. We have our ideas as to the proper remedy but as the Trustees under their construction of existing laws do not recognize the council as a power above them we will not advance them now but leave the council to determine the proper action. We do however report that in our opinion the failure was owing to mis-management in water works department. We would also advise the council that in our opinion to much money is expended of the people in the management of the works. We find that six employees only three of whom claim to be skilled draw in the aggregate as salaries $5820. We would recommend that this force and expense be decreased, and that in lieu thereof that a skilled and compitent superintendent to take whole supervision of the works be employed, and in making this recommendation we would draw the attention of the council that no contract for service can be made without being first ratified by the council. And in conclusion we strongly urge the necessity of keeping the ordinary steam pressure at 65 to 70 pounds and a fire pressure of 110 pounds.

Councilman Kettler submitted a map showing the line of the proposed Clay street sewer, which was on motion received and placed on file.

Report of St Commissioner

As Your Honorable Body is about to take some steps in relation to the construction of some sewers during the coming spring, permit me to call your attention to the old wooden sewer on William stret and Hoagland avenue. Said sewer I reported to your honorable body last summer to be in a bad condition and it would be a useless expenditure of money to repair it. In my opinion by the time the frost will leave the ground next spring the principal part of

sewer will cave in thereby stopping the only out let to the new rock sewer on Williams street and Butler street which was built last spring.

Report of Special Committee.

Your special committee on telephone for the engine house respectfully report the following communication from H. C. Ecklet Supt of Midland Telephone Co.

Signed A. Wolf.

Henry Colerick, City Attorney.

Fort Wayne Feb 23- 1883.

A. Wolf Esq

Dear Sir:

I will put up a telephone in the Engine house as soon as possible, on my own responsibility, until the Company take action in the matter.

Signed H. C. Ecklet, Manager

which report was received and ordered placed on file

We your committee to whom was referred the order of the Board of County Commissioners of Allen County in relation to the working of state prisoners upon the public works, respectfully report that said order was made with the view that the city shall furnish the stone to be cracked for the keeping in repair the approaches to the different river bridges within or adjoining the city limits. The law leaves it to the discretion of the said Board as to whether such prisoners shall be worked or pottered in idleness. If the Board should wisely determine to work the prisoners then the law determines where they shall be worked, namely in cities and towns, because the work would then be done for the benefit of the majority of the people of the county. If worked in a city they must be worked under the supervision of the Street Commissioner, the expense to be paid out of the county treasury. The city of Fort Wayne pays into the county treasury a little over of half of all the taxes and the city contains a large number over one half of the whole number of the inhabitants of the county. Now while the law says if worked they shall be worked in the city at

county's expense, yet the Board says that unless the city pays for such stone they will not order them to work, although the city now pays over one half of the expense of keeping such prisoners. This your committee believes to be unjust and unwise and would recommend that the Council leave the said Board to take its own action as the wards of the people of Allen County, and if said Board prefer so to do, let tramps, vagrants and lawbreakers feed and fatten at the expense of the people.

Signed C.T. Zollinger Mayor

Henry Colerick City Attorney

which report was on motion concurred in and city clerk instructed to notify commissioners.

We your committee to whom was referred the above bill of Fleming Mfg Co for $50. would respectfully report to your honorable body in favor of allowing Forty dollars of the above bill.

We believe that a surplus will be in the treasury this year of something near $40.000. which some claim should be used as means for a City Hall. While your committee believe a New Hall desirable, we yet believe that the citizens are willing to wait a couple of years, or until next year for a new hall, and that this surplus should be used carefully in giving to the property of the whole city that protection from fire that good government owes to those who pay the expenses, Over Eight millions of Dollars are without any protection, or such protection as is next to home, we believe that wisely the council should distribute the department first and then build a city hall. If not what will be done with the department while city hall is being erected? Every city of our size and importance has a distributed department while the expense is great the necessity is greater

Signed J. H. Welch, C. Pape
Herman Michael. John Wessel Sr
Wm Yergens. Wm Dochman
and A. Wolf

which report was on motion received and placed on file.

Report of a special committee on the boundaries of the city of Fort Wayne &c, was on motion ordered printed without reading.

Report of City Attorney

1st In reference to the bills of James Smith, Henry Rable and William Rable aggregating fifteen dollars for recovering the drowned body of one Gottlieb Siebold. I report that the same cannot be legally paid by the city, for the reason that the city is in no manner liable.
2nd In reference to the bill of William B. Buford amounting to $58.75 for Board of Health records I respectfully recommend that said bill be not allowed. The said bill must either be paid out of the funds provided by the act of the General Assembly making them necessary or by the County
3rd In reference to the bill of Auditor Gribel bring $1.00 for assessment certificates I report it should be paid.
4th I have prepared the necessary ordinance for the taking of the assessment for 1883, and respectfully recommend its passage.
5th I have carefully examined the official bonds of the police force and find the same in all things regular and sufficient.

Report of City Attorney.

1st In the matter of the contemplated Sewer in the locality of Concordia College, I report that if said Sewer should be built by the City no Assessment of benefits could be legally made against the College grounds for the building of it; because the same is not subject to taxation and only properly subject to taxation can be assessed. I would suggest that this evil might be remedied in one or two ways. Either by the College Authorities depositing to the credit of the Contractor the amount of the benefit, which can be first determined, or by some responsible parties giving the Contractor a bond that the benefits will be paid as assessed upon the completion of the Sewer.

2nd I now notify the Council that suit has been brought against the City by Charles Houser for services in procuring the body of a dead man from the river during high water. There is nothing in the suit; as the City is in no way liable.

3rd In reference to the Petition of the Hon. J.K. Edgerton, asking for a refunder of Taxes voluntarily paid before due, I report that the prayer of the petitioner ought not be granted, because if the Council sets the example of refunding Taxes voluntarily paid but against the assessment of which some technical objection could have been made, if not waived, there is no means at present of knowing when it would, under the present disputed limits of the City. Therefore I recommend the City to stand by her legal rights, As for Taxes voluntarily paid, there can be no recovery.

4th In the matter of the claim of Frederick Rolka, for the building of Sidewalk on Alley between H.G. Wagner and E. Sidels property, I report that the same is withdrawn, having been paid by the property holders.

Signed Henry Colvick
City Atty.

Report of City Civil Engineer.

I would respectfully report to your Hon. body the following details with reference to the plans for the construction of the "Clay Street Sewer" I have prepared a profile and fixed a grade starting 9 feet below the surface at Saville Street, and with a fall of 1 foot in 170 makes the following cuts.

At Charles Street	12 ft
" Wallace "	16 "

Bl. Virginia	Street	10 ft.

Report Trustees of Water Works.

In relation to the petition heretofore referred to us by your honorable body praying for an extention of the water mains on Pearl Street; The Trustees of the Water Works recommend that the prayer of the petitioners be granted. We respectfully represent that the estimated cost of a four-inch line from Harrison Street to about half way between Cass and Ewing Streets a distance of 750 feet, would be about $20.00 The probable revenue to be derived from said extention, as per written pledges on file in this office, would be about $120.00 per annum, or nearly 20 per cent on the cost of the extention. We recommend that your honorable body at this time make an appropriation sufficient for the purpose, so that the work may be done without delay, as it is a case where urgent necesity exists for immediate action. We shall be happy to make the extention as soon as the necessary funds are raised by the City Council.

There are at present no surplus funds in our hands which can be spared for the said purpose, owing to the recent very heavy expenditure on account of the new suction pipe at the pumping house, Engine repairs, water meters &c

The work was generally done in a manner satisfactory to the Citizens, and the Contractors, especially Mr. Saegahn deserves credit for their energy and perseverance under at times very discouraging circumstances. The large number of contracts requiring hard brick completly gutted the market and out side markets had to be resorted to, and the best could be secured fell below the standard required. Much of this difficulty was caused by the laiteness of the season when most contracts were let, (an error which the City should avoid if possible) and the early and continuous winter. A few minor contracts were on this account carried over and are now in course of completion

Report of Water Works Trustees.

We regret to have to inform you that another break has been discovered in the influent pipe at the Reservoir, this being the third accident of the kind which has occured within a year. The pipe heretofore used was specially cast and laid according to plans and drawings furnished by Mr. J.D. Cook, the late Consulting Engineer. It differed from the other pipes used for the water mains in this respect, that the joints were flange joints bolted together, making the pipe perfectly rigid. We are inclined to think that the plans were defective, and that a mistake was made in the use of flange pipe. We believe it is impossible to pile up such a large amount of earth no matter how carefully it may be soaked and rolled without some settling of the embankment taking place.

The pipe necessarily sustains a great weight; and if the earth settles there must be some sort of joint that will yield in proportion to the settling of the embankment. We have written to different parties for the purpose of getting information in regard to the character of the pipe used in other reservoirs throughout the country, and believe that extra heavy pipe with common lead joints will make a pipe flexible enough to yield to the settling of the embankment, and obviate the difficulties heretofore encountered.

The time has come when work ought to be resumed at the Reservoir, and therefore we respectfully urge upon the Council the importance of immediate attention to this matter, and the appropriation of means for laying the pipe in a perfectly safe and permanent manner, and completing the reservoir as quickly as possible.

At the meeting of the City Council held on the 10th day of October, 1882. an Estimate of $303.77 was allowed in favor of the reservoir Contractors, Bailey & Langohr with the understanding that the estimate should not be paid until the Contractors resumed work. They have now done so, and we request that enough money now be turned over to the Trustees to cover said Estimate. We also suggest that as the Construction Fund in the City Treasurer's hands is exausted, there ought to be a transfer made to that fund so that when estimates are allowed there will be funds ahead to pay them.

Report of Marshal.

I respectfully report that I wish to reappoint my present deputies Diedrick Meyer, Jesse Pallon, and Frederick Linnecooley as my Deputies to serve the following two years as deputy Marshal of the City and also request that I may be allowed two other deputies to serve under me during my present term, as it is impossible for me, with my present force to successfully protect the interests

and place of the City, with my present force. Mr Linscooley is engaged wholly at the South Depot, and my other deputies with myself are necessarily engaged the greater portion of the time especially during business hours in the business part of the City, And we cannot attend to the complaints made to us in the outer parts of the City.

Communication from C.M.Barton Ass't.

There is a matter which has with no pleasing effect been brought to my attention almost every time I have opened the Tax duplicates for the past three or four years - and which I earnestly hope may not be left as a legacy to my successor -

I refer to the anomalous condition of the City limits, or rather to the want of any defined limits.

A few references may serve to make this condition more fully understood. For instance - of eighty Acres lying between Hallen and Glasgow Avenues projected - and extending a half mile south of Pontiac Street - the extreme south ten Acres are taxed - and some three or four other 5 acres pieces in different parts of the 80 acres - the balance is admitted to be not in the City and is not on the tax duplicate.

Of the Forty Acres extending a half mile south of Pontiac Street between Lafayette and Warsaw Strits projected the extreme south part designated, "Hebbies Addition" is taxed nearly all the balance of this 40 acres is not on the duplicate. In the 200 Acres between the 80 and 40 above mentioned, a few small isolated pieces are taxed, - the balance is not.

Of Course Subdivision of certain of Barnets Out Lots - the larger portion are taxed, a few of these lots have been dropped off the duplicate in one case - half of one lot nearest the Central part of the City is excluded and the other half is taxed. Besides these, there are manny other cases in nearly as unreasonable condition. I should hardly have brought this to your notice at this your first meeting but for the reason that if you decide to take any action in the matter and should find it necessary to bring any thing in relation to it before the County Commissioners - there may not be time to get matters in proper shape for the June Session of the Board of Commissioners unless your action be had at your next regular session

Council Chamber
City of Fort-Wayne
Regular Session
May 22nd 1883.

The Common Council met in regular Session, His Hon Mayor Zollinger in the Chair and present the following Councilmen, Messrs. Baltz, Brames, Dochman, Hamilton, Kramer, Lumbard, Michael, Mohr, Martin, Papa, Reidmiller, Smith, Vordemark, Mlch, Mssel, Wolf A. Woulfe J. and Yergens (18).

Mayors Address.

Gentlemen of the Council.

Having been again and for the sixth consecutive time elected by the people as the Chief Magistrate of this important and thriving City, I feel it my duty as it has been my custom in entering upon a new term to advise the people whos servants we are, and to encourage you by delivering a brief resume of what has been accomplished for the City, and to suggest how by care and good judgement we may continue to advance the best interests of the City and how by rendering wise and faithful service, we may be as proud of the record we are to make as we are of the record we have made.

Our bonded indebtedness on the 1st day of April 1883 the end of the fiscal year was $835000, of these bonds none bear a higher rate of interest than 6% and the bonds known as the gravel pit bonds of which there are $14.000 outstanding which fall due in this year, they becoming due July 26th 1883 and I feel well satisfied that they will be promptly met when due.

The next installment will be due April 1st 1887 being the Grand Rapids Railroad Aid bonds. In the fiscal year just closed the City saved by economy and care the sum of $39.948.39. $22.239.09 of which the Council might have set apart to help meet her bonded indebtedness but they wisely choose to loan it to the Waterworks board for the purpose of extending and making more complete our matchless Water Works system. The net decrease in public debt for the past twelve months is $17.709.39.

And now Gentlemen on entering upon our new terms we find the City without a floating debt and with $84.000 in her treasury. Our Water Works System is in satisfactory

and with the exception of the Reservoirs completed. Already there are over 1000 consumers and a probable increase this year of 2000. The insterst on the bonds is $15.960 the running expenses $8.500

But there we find that in the second year of their completion they are nearly self sustaining lacking but a few thousand dollars of paying all the expenses of operating and maintaining and providing the means of meeting the interest on the bonds. I predict that in a couple of years these works will be producing an income that will eventually wipe out the debt created by their erection, And now I feel it my duty on behalf of the taxpayers to return thanks to the Trustees of the Water Works for the faithful, wise and economical manner in which they have discharged their duties.

Now that the water works are completed let me suggest again as I did two years ago the necessity and the justice of distributing the Fire Department. As is well known all our fire apperatus are housed at one certain point, and at a great distance from the largest manufacturing establishments, which have the same right to fire protection that is accorded property holders in any other parts of the City. By reason of our Water works plugs and hydrants all distributed equally all over the City, but these all of no avail unless the apperatus to make them available for fire protection is located somewhere near the vicinity.

In reference to the management of the Fire Department I must say that I find it beyond criticism. The members are all faithfull and obedient and as is shown by the Chiefs report they are efficient and beyond this, And to the credit of the Chief of this department, I find that he has in the last fiscal year run the department as well as it has ever been run and that he has saved to the people by wise management and curtailing expenses the sum of $1.834.65.

A vast amount of work has been done in the last year upon the public Streets of which there are 99 miles. I find that by Sewers, Streets, Sidewalks, and Gullies the City has expended from the taxes the sum of $6.590. and the property benefitted has paid for like purposes the sum of $57,913.09 making in all the sum of $64.503.00 invested in street and sidewalk improvements. This is well for there is no excuse for bad sidewalks or Street in a City. The law gives the City the right to make these improvements at the expense of the property benefitted but further makes it the duty of the City through her Officers to see that at all times the Streets alleys and Sidewalks are in good repair and hold the City liable for damages by reason of any breach of such duty. The Police force is now by

reason of the late Ordinance in better condition than it has ever been known in our city. The men comparing the force know and feel that they are not placed upon the force until the Annual Election they know that the term of their employment is to be gauged by the manner in which they discharge their duties

I feel that the Ordinance has accomplished what the Council expected when they passed it, and in closing this subject I desire to commend the faithful manner in which the Chief and his Lieutenant have discharged their duties in bringing discipline and Obedience into the force and the prompt manner in which they have reported those members who shirked or violated their duties

I find each department of the City Government running in the best manner possible for the City's interest; I find that members of the Common Council as well as all City Officers working for the City with the same energy and care that men exert in their own private business and it is mainly through this service that our City enjoys her reputation of being the model City Government of Indiana.

I desire now to caution you to be as careful in the future as you have been in the past. You will soon be called upon to make the estimates of your different departments for the ensuing year, let your estimate be carefully made, this should be large enough to cover all your Expenses for it is your only method under the constitutional Amendments by which you can issue Orders beyond the cash on hand.

While you should be careful to make the estimate large enough you should likewise be sure and not ask for a dollar more than you really need for you may by this overestimating the Expenses of your department cause an increase in your levy which I hope will not be done.

Gentlemen, Our Ordinances have not been revised since 1874 and by reason of the changes in the law and the growing needs of our City have caused new Ordinances to be passed and old ones to be amended so often that the old revision of 1874 has become not only nearly useless but dangerous by reason of misleading those who rely upon it; I therefore respectfully recommend that the City Ordinances be carefully revised by some person or persons well qualified for such work.

And now Gentlemen in conclusion let us stand firm to the trust reposed in us by the people, Let us strive still further to add to the proud reputation of our City and assist still more in lessening the burthens of Government which is

upon the people and when we are done they will reward us by saying well done thou good and faithfull servants.

Respectfully Submitted
A Ballinger Mayor

12th In relation to the Annual reports of the City Civil Engineer and Street Commissioner which were referred to us, Both reports are very satisfactory and we report that both reports be received and filed.

13th In relation to report of the Street Commissioner, We are of the opinion that the Expense of repairing the bridge over Shawnee Creek on Dewald Street must be borne by the City for the reason that Dewald Street is not one of the thoroughfares of the County but is a Street made and wholly used by the City for the use of the Citizens of the City, otherwise we believe it would be the duty of the County to keep it in repair.

1st As to the petition of Rev. K Deshner beg leave to report. That we have examined the blank and find that Mr. K Deshner made an affidavit as to the par valuation of his personal property. Your Committee can not see why they should reduce his assessment as originally made. We therefor recommend that the prayer of the petitioner be not granted.

2nd In reference to petition of Mary E. McLachlan we recommend that the prayer of the petitioner be granted upon her filing an affidavit with the Clerk that the $1500. in her blank No 2 represents the same $1500. as in No 82 of City Tax Statement 1882 and that then the Clerk be authorized to issue an overcharge for the same.

3rd As to the petition of Christ Strasburg we find after a careful examination that the House on W. 20 ft of Lot 36 County Add. taxed for $200. on Improvements on said Lot has been removed from the above described property over three years ago. The City appraisers by an oversight overlooked the same, legally the party can not have any money refunded as they paid the same without protest, but as the party was innocent of the fact as he

stated, We therefor refer the same back to your Hon bodies for further action upon the same.

Report Committee on Rules, Regulations & Ordinances.

We your Committee on rules, regulations & Ordinances respectfully report against the propriety of passing any Ordinance restricting the use of the bicycle upon the public Streets as a means of travel and conveyance, Your Committee is of the opinion that no such ordinance could be legally enforced. The objection urged to their use is that they tend to frighten horses, but we believe this objection could as well be urged against the use of railway and Street cars and against the use of

Omnibusses, We are of the opinion that by reason of their almost universal use that they are now recognized as one of the legitimate modes of travel and for that reason do not report an Ordinance

Report Committee on Fire Department.

Your committee on Fire Department to whom was referred the report of the Chief Engineer of said department respectfully report as follows.

1. In reference to the bad condition of the fire alarm telegraph we recommend that the same be repaired as cheaply as possible and that all of the old wire be used that can be made possible to do and we further recommend that in the further grant to any telephone Company of the right to use the Streets with their lines that it be upon condition that the exclusive right to use the upper line for fire purposes be granted and reserved to the City.

2nd In reference to location of a new fire alarm telegraph box we respectfully report against the purchase of any new fire

Alarm box, but ask until next meeting to report upon the propriety of making a change in the location of a box now in service,

3. In relation to the distribution of fire department apparatus we acknowledge the necessity but feel that it is impossible for the City to make such change at this time, as the expense would be far beyond the present financial ability of the City to bear

Your Committee on Bridges and City Civil Engineer to whom was referred the resolution of Councilman Mick in regard to the construction of a Stone Culvert over Shawnee Run on Dewey Street beg leave to report. That we have examined the proposed site and find that some improvement affording a safe and permanent crossing for the public is very necessary that a Stone culvert such as contemplated by the resolution will cost $1600 dollars.

No cheaper improvement which will serve the purpose equally as well can be made by constructing a wrought Iron Truss Bridge

Report of City Attorney.

1. The City Clerk has asked me to report to this Council my opinion as to whether or not he should upon his own motion place upon the Tax Duplicate the levy ordered by the Trustees of the School Board for the purpose of a Publick Library, or whether he should await the action of the Council. I report that I am of the opinion that the clerk has no right to place any thing upon the duplicate not ordered by the Council. If the Board have the right to make the order for the levy they should certify such order to the Council and the Council and the Council should if such order is legally made, After the sitting of the Board of Equalization make the levy.

2. In reference to the claim of M. V. B. Spencer for costs in different cases. I report that I find the claims in cases of State ex-rel and the case of Coombs Guardian vs City all amounting to $16.25 in all correct, and as to his claim in the case of McCulloch vs City I ask until next meeting to report.

3. I desire to draw your attention to, two very important cases lately decided in the Supreme Court of Indiana. The first is that of Sackett vs. New Albany in which it is squarely held that no city order can issue legally from the City unless the money is ready to meet its prompt payment. In other words unless the money is ready to meet such order, its issuance may be enjoined by any tax payer of the City who chooses to object. The other case is that of McEvoy vs Indianapolis in which it is held plainly that money paid to the City either through fraud, accident, or mistake can be recovered, whether paid voluntarily or not. I thus openly advise the Council now of these decisions in justice to myself and so that the Council in fixing the amount of the Tax levy, Circus licenses, Legin licenses, and other revenues of the City may do so in the light of these decisions.

4. In the matter of the alleged erroneous payment of one hundred dollars to the City by one James K Riffle et al

and which is now claimed by two different parties. J.R. Pringer & Emmet Powers. I respectfully recommend that the City await suit and upon suit being brought the City can pay the money into Court and let it then be award to whom it may be due

Referred to Committee on Gas & Street Lights

Your petitioner August Gerbording would respectfully represent that he has received a final estimate from the City Civil Engineer for the grading and macadamizing of that portion of the Market Place of the City of Fort Wayne east of the Market house and between Berry and Wayne Street;

That according to said estimate $453.00 of the amount allowed him for completing said work purports to be due from Samuel H Shoaff E B Kunkel, John Studebaker and Wolfgand Eckert that he has demanded from each of said persons the amounts which from said estimates purports to be due from such individual but that each and every of said persons refuse to pay any portion of said assessments claiming that the property for which said assessments were made belongs to the City of Fort Wayne, that from the records of Allen County the entire space by your petitioner macadamized and graded appears to be the property of the City of Fort Wayne, and that none of said improvement appears to be on land in which said Shoaff, Kunkle, Studebaker and Eckert have any interest.

Wherefore your petitioner prays this honorable body to examine said matter and cause said estimate to be corrected so that said $453.00 assessment may be charged to the City of Fort Wayne and for other proper relief

August Gerbording.

Referred to City Attorney to report at next meeting

Michael Nelligan and others prayed that a crock Sewer be constructed between Lewis Street and Douglass Ave. from Harrison to McClellan St.

Referred to Committee on Sewers
